NURSERY LOCATION MAP.....

TERMS OF BUSINESS

All plants grown by us are carefully nurtured, lifted, inspected and packed to ensure that they travel safely and reach customers in perfect condition for successful planting. We study all requirements with care and despatch high quality plants to fulfil them.

LIMITED WARRANTY

You are the reason for the success of our business and we want to do our best to retain your patronage for life. However, as Australia is a vast country with many different climates, soil and water types, **we offer no warranty expressed or implied, as to growth, productivity, description or quality and will not be responsible for the crop, as these factors are governed by forces beyond our control.** If the plants are found to have been wrongly labelled, we correct the mistake with new plants, when reasonable evidence has been forwarded to our office.

If you feel or suspect there could be a problem with our plants, you should notify our office within 4 weeks of receiving our plants, so we can help you solve any problems that could be hampering the establishment of your new plants.

Any claims forwarded after the four week period has elapsed may not be recognised.

All sales are made subject to these terms and if the purchaser does not accept the goods sold on these terms, they are at once to be returned and your money will be refunded.

Terms of Business: Strictly cash with order, unless otherwise arranged.

Prices: We reserve the right to alter priced without notice.

Those who wish to call and collect their plants are asked to give two days notice of their intention to do so; we would then have the plants ready, provided that the order is being executed in its fair turn.

Please note: Fruit trees are only available for pick up from the nursery.

FRUIT TREES

BELOW is a list of the most commonly grown fruit trees, that are readily available from our nursery most of the year. All trees are grown and sold in plastic bags or pots. If you require, or have a query about any other fruit tree not listed here, then please contact us for a check on availability and price. We also carry a large range of TROPICAL and RARE fruit trees too numerous to list in this publication.

Best planting times are Spring and early Autumn.

GRAFTED VARIETIES Include 344. 741. 660. 800. 246.

SPRAYS & FERTILIZERS FOR ROSES & FRUIT TREES
ARE AVAILABLE AT THE NURSERY.
ADVICE FREELY GIVEN WHERE NEEDED.

FRIENDLY ENVIROMENTAL SPRAY

To help control blackspot and mildew
Will NOT help in the control of insects.
Spray ONLY in the cool of the day
Spray every ten to fourteen days.

1 PART (1 CUP) OF ANY VEGETABLE COOKING OIL
½ PART (1/2 CUP) WATER

Place into blender with a teaspoon of washing up detergent (this is not essential but it makes the mixture able to be stored for a length of time). Blend for a few seconds to create a mayonnaise type mix. Place into jar.

Mixing : Mix 1 part (10 mls.) home-made spray to 40 parts (400 mls) water and spray all parts of plant, especially under the leaf. (i.e. 25mls per litre of water.)

MILK SPRAY RECIPE

One part full cream milk to 10 parts water. Spray young growth as it appears at least every 10 days to protect against Black Spot.

To control insects, spray with NEEM OIL. Follow directions on pack.

Citrus Tree Pests

To control aphids, leaf miner, grubs, scale insects, black spot, fruit blemish and black sooty mould -
Spray citrus once a month with a mixture of white oil, diazamin and copper oxychloride (kocide).

More frequent sprayings may be necessary. If pest populations are high during summer, you should then spray every two weeks.

NOTE: If you do not like to use chemicals on your plants, environmental friendly alternatives are available such as soap sprays, neem oil and vegetable oil sprays.

See previous for details on recipes or phone nursery during office hours for more information.

C.S.I.R.O. Soil Testing Kits

Easy to use. Accurate and Economical

These P.H. Soil Testing Kits will take the guess work out of gardening as to whether your soil is Sweet or acid? Different plants require various P.H. readings to thrive. Full information is sold with each kit.
